Do you have any comment on this portion of NIE-45. Please give me your comments, in rough, by close of work tomorrow 15 Jan.

Am

Comments:

Regarding # 5, p. 2., it should be pointed out that Xanthracite and wheat are also desired by France from the Soviet Bloc.

8, p 3. first sentence --- Probably an overstatement. Shovels spelled out

7, p 7 - Soviet and Rumanian fuel oil shovels added to the import side.
